Chapter 4 of this Manual

~~ISO/IEC~~ Standards for Web Domain Name Acquisition and Support

SCOPE:

This requirement applies to all Florida Department of Transportation (Department) personnel, OPS personnel, and non-Department personnel under contract with the Department who access and distribute information on the Internet.

TRAINING:

~~No training is required. Web Authors are expected to have a basic understanding of the Web development process. Any training that is required should be requested through the Web author's supervisor. The Department Webmaster can provide general assistance and technical support during initial design and maintenance of the Web site or Web application.~~

FORMS:

~~None.~~

15.1.1 All users must adhere to the provisions of:

- Chapter 119, F.S., Public Records Law
- Chapter 815, F.S., Computer Related Crimes Act
- Policy No. 001-325-060, Security and Use of Information Technology Resources,
- Chapter 4 of this Manual

15.1.2 Minimum Hardware and Software Requirements

Contact the Department Service Desk for minimum hardware and software requirements.

15.1.3 Access to the Internet is intended to be used for business purposes and is governed by this procedure and the Department's policy titled ***Policy No. 001-325-060, Security and Use of Information Technology Resources***. Access to the Internet may be revoked at any time.

15.1.4 Personnel shall not post information on the Web ~~that~~^{which} is exempt from the provisions of ***Chapter 119, F.S., Public Records***, and ***Section 24(a), Article I, of the State Constitution***, or any other specific statutory exemption.

15.1.5 All documents, graphics or other material accessed on or obtained through the Internet must be in accordance with Department policies and procedures. All copyrights and rights of licensure must be adhered to in the use of material on the Internet.

15.1.6 Information technology resources of the Department must be safeguarded. Internet access will be provided by the Office of Information Technology (OIT). All connections from the Department's internal network to the ~~Internet will~~^{Internet will} be through the Department's firewall.

Exemptions to this procedure may be granted if a valid business justification is presented. The valid business justification must have the approval of the office's Director (SMS level) or higher-level manager and the Chief Information Officer (CIO) with the understanding that the cost centers will be responsible for all costs incurred by their staff.

15.1.7 Violations of the Department's requirements, policies, or procedures concerning Internet usage will be reviewed on a case-by-case basis. Misuse or abuse may result in cancellation of privileges to use Internet services. Violations may also result in disciplinary action, up to and including employee dismissal.

15.2 DISTRIBUTING INFORMATION THROUGH THE INTERNET

15.2.1 Prior to developing a new ~~Web application~~ internal or external website, approval must be obtained through the Public Information Office (PIO).

15.2.2 Department Web sites and Web applications must be designed according to Section 508 Standard, the Florida Department of Transportation (FDOT) Department Website Design Guidelines and Internet Web Site Design Standards as documented in the Adopted Information Technology Resource Standards.

15.2.3 A site Rreview and registration is required prior to the initial publication of thea Web site or Web application. This includes externally hosted Internet websites representing a Department business presence.

The review and registration process must be initiated by the site owner via e-mail to the Department Webmaster and the Central Public Information Office PIO. The request must contain:

- a) purpose of the Web site/application
- b) names, ~~and User IDs~~ and contact information of the Web authors
- c) address of test files for the purpose of review

The PIO will provide a content review to ensure the content of the ~~W~~web site/application is appropriate, professional and is ~~consistent with the overall design commonly~~ in accordance with the Website Development design Guidelines used by the Department.

Webmaster will offer a technical review and register the Web site/application on the appropriate Internet server.

Modifications to the registration, including site permissions, shall be ~~updated~~ handled upon request of the site owner. Such requests must be submitted via email to the ~~FDOT~~ Department Webmaster.

15.2.4 Material placed on the departmental Internet Server will have the Domain Name of DOT.STATE.FL.US.

Exemptions to the domain name requirements may be granted if an office provides a valid business justification. In the course of establishing a Web site, a WWW Internet Domain Name (other than DOT.STATE.FL.US) is sometimes required. All WWW Internet domain names which represent the Department are to be owned and managed by [OISQIT](#). If a domain name is required, a request for approval must be submitted via email to the PIO and the [CIOQIT Business Manager](#) before purchasing the domain name. The request for approval must contain:

- a) desired WWW Internet Domain Name
- b) full IP address of the hosting server
- c) description of the content of the site
- d) technical and administrative contacts (phone and e-mail address)

The purchase, ownership, renewal, and technical support of the requested WWW Internet Domain Name must be initiated and managed by [OISQIT](#).

15.2.5 District offices must work ~~with their~~[through eCentral eOffice](#) counterparts in order to post information to the Internet.

District office exemptions to this requirement may be granted if [an offices](#) provides a valid business justification. The valid business justification must have the approval of the [CIOQIT Business Manager](#) and the PIO.

TRAINING:

Web Authors are expected to have a basic understanding of the Web development process. Any training that is required should be requested through the Web author's supervisor. The Department Webmaster can provide general assistance and technical support during initial design and maintenance of the Web site or Web application.

FORMS:

None Required.
